310 Checkers Dr. Apt. 210, San Jose, CA 95133

EDUCATION

University of California - Irvine

Irvine, CA

Bachelor of Software Engineering

2017

GPA: 3.12

EXPERIENCE

Research Assistant

Irvine, CA

Research Assistant for Dr. Gloria Mark

Oct 2016 – Dec 2016

- Outlined a collaborative website analyzing and improving people's internet usage leading to more user self-awareness regarding their technology habits.
- Engaged with internet users to formulate a deeper understanding of current trends and habits.

PROJECTS

Grafos

- Developed a prototype web application for behavioral therapists in the applied behavior analysis field to increase work efficiency by replacing paper and binder storage.
- By tracking trial success and storing data in the web application, users spend less time recording data by hand and do not have to store endless amounts of data in binders.

EZPCParts

- Designed and developed a website selling computer parts. Users are able to choose products and quantity, add to cart, see recently viewed items, checkout, and receive an order confirmation.

Job Search Engine

- Built a job search website prototype for a company looking to revolutionize the job hiring process.
- Implemented an employee/employer account system complete with the ability to post and apply for jobs, edit employer and employee profile pages, and reject or hire candidates.
- Exact details of the website are disclosed information due to an NDA being signed.

rccatuci.com

- Designed, developed, and maintained *rccatuci.com*, providing new and current Red Cross members announcements and other relevant information related to the Red Cross UCI organization.
- Collaborated with other board members to promote and maintain the organization's operations.
- In addition to webmaster duties, led and volunteered for community service events to better the community.

SKILLS

- HTML/CSS, JavaScript, jQuery, PHP, MySQL, Java
